MRITYUNJAY RAVI IYER

<u>OBJECTIVE</u>

To work in a challenging and innovative environment that will allow me to learn and grow as a software engineer and manager

<u>MANAGEMENT EXPERIENCE</u>

Oct 2008 - July 2011   Atlantis Computing

Engineering Project Manager

- Experienced in project management, project/issue tracking and people management.
- In charge of all research and development projects conducted in the Bangalore centre.
- Handled delegation and management of development support for customer issues.
- Managed development support for Sales Engineering team.
- Experienced in managing projects with both local and remote team members.
- Managed multiple projects running simultaneously.
- Trained and mentored team members in Agile software development.
- Handled technical recruitment and induction.
- Liaison between US and India teams for projects planning and delegation.

<u>TECHNICAL SKILLS</u>

Programming Languages

- Ruby, Python
- Learning Clojure and Erlang

Development

- *Operating systems:* GNU/Linux (use and development), Windows (use)
- *Frameworks:* Rails (Ruby on Rails)
- *Virtualization:* VMware, Qemu
- Working knowledge of Unix System Programming
- Good knowledge of Shoes (Ruby based GUI toolkit) and working knowledge of Gtk (Rubygtk)
- Experience in full software lifecycle (ideation and design, development, testing, packaging and deployment)
- Good knowledge of Linux OS customization and packaging
- Good at rapid prototyping of ideas
- Experienced in Customer support and interaction

Tools

- *Version control tools:* Git, Subversion
- *Project management tools:* Jira, Green-hopper, Bugzilla, Trac, Pivotal Tracker
- *Development tools:* Firebug

<u>TECHNICAL EXPERIENCE</u>

Aug 2006 - Present   Atlantis Computing

Atlantis Webtop

- **User signup system:** Designed, coded and launched a user signup system using RoR, automated mailer for signed-up users using Action Mailer (RoR) and automatic distributed backup using Slony (for postgres).
- **User management system:** Designed and developed a comprehensive user management system written in RoR and integrated with the Linux (Gentoo) user environment. The system involved user quota management, access rights, subscriptions etc.
- **User chat integration:** Designed and developed a user chat system integrated with RoR backed UI using ejabberd and JWChat.

- **User monitoring:** Designed and developed a user monitoring framework to record usage, geographical access, subscription usage, report generation and trend generation.
- **Google gadget:** Delivered a complete webtop access console re-written and miniaturized to work within a google gadget (XML and RoR)

Atlantis Unity

- **Active Directory:** Developed the active directory integration for Atlantis Unity using Ruby, Ldap and RoR. The system enabled active directory to manage users, permissions and secure login using AD credentials.
- **Netboot:**
    - Designed and developed a PXE-boot Knoppix based JeOS. The JeOS allowed diskless clients to boot into a custom environment and seamlessly startup a Windows based virtual machine image using Qemu built into the JeOS.
    - Enhanced the JeOS to use Ubuntu as a base. The user can select a Windows based virtual machine image and boot into it seamlessly using VMware Player built into the JeOS. Worked with Etherboot gPXE team to integrate gPXE with the Atlantis Netboot solution. (http://etherboot.org/wiki/appnotes/authmenus)

Atlantis Ilio

- **Installer:** Designed and developed the email integration to the installer using Ruby and Dialog (Linux).
- **Monitoring:** Designed and developed a notification system to inform administrators regarding server failure, failover or failback (in a high availability environment) using the integrated email system, using Ruby and Erlectricity integrated with the Erlang backend.
- **Configurator:** Designed and developed an installer/configuration generator using Ruby/Shoes. The configurator managed networking, installation details and deployment details needed to install/deploy the product.

MANAGEMENT EXPERIENCE

Oct 2008 - Present   Atlantis Computing

- Research and development lead (Bangalore) since October 2008
- Handling project management, delegation and interaction with senior management.

ACADEMIC QUALIFICATIONS

B.E. Computer Science	Dayananda Sagar College of Engineering Bangalore, Karnataka (VTU)	2006
Standard 12	National Public School (CBSE) Bangalore, Karnataka)	2002
Standard 10	National Public School (CBSE) Bangalore, Karnataka)	2000

ACHIEVEMENTS

- Was part of the team that suggested a changed university syllabus, for the seventh semester laboratory. The team's suggested syllabus is being currently implemented.
- Was part of the team that wrote the manual (now part of standard VTU syllabus) for the seventh semester laboratory as well as complete solutions and open-source simulator.
- Organized and co-ordinated the team that conducted a mock placement for the third year students of the Computer Science department, involving complete mock company presentation to H.R. etc.

- Was part of the team that organized the Entrepreneurship Development program for the final year students of our college in the year 2004.

PERSONAL DATA

- *Name:* Mrityunjay Ravi Iyer
- *Father's name:* Ravi Krishnan Iyer
- *Date of birth:* 19th July 1984
- *Website:* www.develmj.com
- *Address:* C1008, Brigade Gardenia, J.P. Nagar 7th Phase, Bangalore - 560078
